

BRIDGING THE GAP: STUDY SKILLS

Year 11s starting a Level 2 course

At the college LRC/ Library we want to support your educational journey as you move into your next steps. We will help you look at different resources you can use for your course.

STUDY SKILLS

We want to help you become an independent learner with different study skills tools in your toolkit that you can use for your course.

FINDING INFORMATION

There are lots of different places to find information for your course and assessments.

This might be books, textbooks, websites, magazines or ebooks.

RESOURCES FOR YOUR COURSE

There are lots of good resources to look at now, to help you get ready for your course. If you are studying a practical course, health and safety will be part of that. Try this health and safety quiz:

<http://www.ouchtraining.co.uk/courses/health-and-safety-courses/health-and-safety-quiz/>

Find out now more about health and safety for the area you are studying. Where could you research this?

OTHER RESOURCES

- Who else might know about the area you are going to study?
- Who are the industry experts?
- Have a look at key resources and websites for your area e.g NHS website or trade magazines
- Create a list of these resources, ready for starting your course

Have a go at this quiz to see how well you are doing with your study skills. What can you develop to help you be even better?

<https://bit.ly/2B>

By using this study skills resource, you have given yourself a great start for college. Look at this resource again before you start your course. At college you can access Moodle, a college related website where you will find great resources for your course.

Every campus has its own LRC/ Library and resources. We look forward to seeing you in the LRC/ Library at College.
